

# Strip reel EMOTION

Strip Reel is a line of flexible printed circuit boards suitable for decorative lighting and integration with Mec profiles. Supplied in 5 m sectionable coils, they are available in 12 VDC with Emotion colour temperature that allows the variation from 2700K to 6500K.

## STRIP REEL EMOTION 12 V

	LEDs/m	W/m	L. Min \ Max	CCT
1280830000FE	120 + 120	15,5	25 mm \ 2,3 m	Emotion

## CABLES AND CONNECTORS

	Power cable from lamp to 12 V power supply, includes two springs to join the pieces without welding.	L: 3 m 12603960000
	Extension from output cable to power supply 12 V	L: 1100 mm 12604220000 L: 2200 mm 12604230000
	Reversing the polarity of the connector changes colour from warm to natural (only for 12 V EDC version)	L: 50 mm 12605010000
	Soft link lamp-to-lamp connection for both 12 V and 24 V.	L: 10 cm 12603930000 L: 40 cm 12603940000 L: 70 cm 12603950000
	Bridge connector for strip segments	19700450100
	<b>MEC DRIVER</b> For the selection of the power supply system go to page 262
